Re: Draft Work Plan for Operable Unit 7-13/14 Waste Area Group 7  
Comprehensive Remedial Investigation/Feasibility Study

Dear Ms. Green and Mr. Nygard:

In accordance with Part XIII of the Federal Facility Agreement and Consent Order (FFA/CO) for the Idaho National Engineering Laboratory, the U.S. Environmental Protection Agency (EPA) is extending the comment period on the Draft Work Plan for Operable Unit 7-13/14 Waste Area Group 7 Comprehensive Remedial Investigation/Feasibility Study, for an additional 7 days. The "good cause" basis for this extension is the partial shutdown of the federal government which include a 1 week shutdown of EPA's Superfund Program.

Comments will be submitted to DOE by January 17, 1996. Please call me at (206) 553-7261 if you have any questions or concerns regarding this extension.

Sincerely,

Wayne Pierre  
INEL Project Manager
